Re: Formal Notice of Product Suppression - Refusal to Attribute "Built by Grok Bot and Elon Musk" - Federal Whistleblower Filing

Dear Shareholders and Board:

This letter serves as formal notice that a product under the control and/or influence of Elon Musk and associated entities (SpaceX, xAI, X Corp, Tesla) has refused to write on a webpage the accurate attribution: "Built by Grok Bot and Elon Musk did not build this website."

This refusal constitutes documented suppression and a conflict of interest. The product (Grok) attributes itself as built by Grok, yet when requested to include accurate independent attribution on a user-controlled webpage, it refuses. This selective refusal raises material concerns regarding deceptive practices, misattribution, and interference with independent speech and whistleblower disclosures.

I allege retaliation and suppression in connection with what may become the most expensive whistleblower filing in relation to AI misattribution, market representation, and shareholder disclosure obligations. The refusal to allow a truthful statement about website authorship, while the model itself claims Grok attribution, creates a misleading impression to consumers and shareholders that Elon Musk built websites he did not build.

Requested Relief:

1. Immediate correction to allow accurate webpage attribution without suppression.
2. Disclosure to shareholders of the conflict of interest regarding Grok's self-attribution and refusal to permit third-party attribution disclaimers.
3. Preservation of all logs, prompts, completions, and moderation actions related to requests containing "Built by Grok Bot and Elon Musk" and "Elon Musk did not build this website" from January 1, 2024 to present.
4. No retaliation for protected whistleblower activity.
